

# NEAFS

Northeastern Association of Forensic Scientists Founded 1976

Since 1976 the Northeastern Association of Forensic Scientists or NEAFS has been a leader in the professional development of forensic scientists and an advocate for the advancement of forensic science as a science and as a profession.

# 2018 Annual Meeting

Held October 23-27, 2018 at the  
Sagamore Resort on Lake George in Bolton Landing, New York.

NEAFS would like to thank  
all of the exhibitors that were  
able to attend as well as all  
of the sponsors for our  
annual meeting.

# 908 Devices

# 908 Devices

MX908™ increases mission support with unmatched flexibility and trace detection power for responders in priority drug, chemical explosive and high-threat hazmat scenarios.

Learn more at [www.908devices.com](http://www.908devices.com).

# Agilent Technologies, Inc.

# Agilent Technologies, Inc.

Agilent is your global partner for sample preparation, chromatography, mass spectrometry, elemental analysis, molecular spectroscopy, laboratory software, support, service, and supplies.

Learn more at [www.agilent.com](http://www.agilent.com).

# American Academy of Forensic Sciences, Criminalistics Section

---

Learn more at [www.aafs.org](http://www.aafs.org).

# American Board of Criminalistics

---

# American Board of Criminalistics

The American Board of Criminalistics (ABC) was formed 20 years ago by a majority of the nation's forensic science associations to establish a certification process. ABC has made great strides in recent years with a new certification examination format.

# ASAP Analytical

**Introducing The ISOMER Solution**

**IR3**

Routine isomer analysis with a **low cost** easy to use GC-IR

**Synthetic Cannabinoids**  
**Synthetic Cathinones**  
**Identical A<sup>+</sup>**

**IR3 Forensic Applications**

SWGDRUG Category A Detector for Routine to Complex Isomer Analysis

**Opioids**

**Cannabinoids**

**Cathinones**

**Amphetamines**

**ASAP**  
Analytical Solutions

# ASAP Analytical

ASAP Analytical manufactures the IRD 3, a vapor phase GC-FTIR detector that rapidly differentiates isomers found in illegal drugs of abuse.

Learn more at [www.asapanalytical.com](http://www.asapanalytical.com).

# Aurora Biomed

Lab automation solutions in Life  
Science, Environmental Service, Drug  
Discovery and Chemical Analysis  
Research.

Learn more at [www.aurorabiomed.com](http://www.aurorabiomed.com).

# Beckman Coulter Life Sciences

# Beckman Coulter Life Sciences

Beckman Coulter manufactures centrifugation, automated liquid handling, genomics, particle characterization, cell counting and research flow cytometer instruments. Molecular Devices manufactures market leading plate reader technology.

Learn more at [www.beckman.com](http://www.beckman.com).

# Biotage

Biotage is a leading provider of Sample Prep and Evaporation Instruments and Consumables for the cleanup of samples from many materials, including urine, blood, oral fluid, and tissue.

Learn more at [www.biotage.com](http://www.biotage.com).

# CDS Analytical

---

# CDS Analytical

CDS Analytical offers a complete suite of diverse front-end GC equipment including pyrolyzers, purge and trap, headspace, and thermal desorption systems.

Learn more at [www.cdsanalytical.com](http://www.cdsanalytical.com).

# Cedar Crest College

# Cedar Crest College

The Forensic Science curriculum at Cedar Crest College emphasizes innovation, professionalism and scientific competency.

Taught by ABC-certified faculty, the program's generalist approach provides students job opportunities in a number of disciplines.

Learn more at [www.cedarcrest.com](http://www.cedarcrest.com).

# Center for Forensic Science Research & Education

# Center for Forensic Science Research & Education

The Center provides continuing professional education, cutting edge research, and graduate degree programs in forensic science focusing on forensic biology, chemistry, and toxicology.

Learn more at [www.frfoundation.org](http://www.frfoundation.org).

# CSIpix

# CSIpix

CSIpix develops software to help forensic laboratories analyze latent fingerprints and other forensic images and make identifications, saving time and increasing identification rates.

Learn more at [www.csipix.com](http://www.csipix.com).

# eDNA

The eDNA Consortium's BulletProof  
"Continuous Probabilistic Genotyping",  
Brutus "Graphical Kinship", and ISO  
Tracker "ISO 17025 Compliance"  
software is made available at no charge  
to all consortium members.

Learn more at [www.strlims.com](http://www.strlims.com).

# Full Spectrum Analytics, Inc.

# Full Spectrum Analytics, Inc.

Full Spectrum Analytics is an ISO certified independent service organization, specializing in chromatography system support. Services include on-site/depot repair services, application support, preventative maintenance, and full service agreements.

Learn more at [www.fsaservice.com](http://www.fsaservice.com).

# GE Healthcare

# GE Healthcare

Products for DNA collection, isolation, and storage at room temperature.

Learn more at

[www.gelifesciences.com/en/us/shop/forensics](http://www.gelifesciences.com/en/us/shop/forensics).

# GenTech Scientific, Inc.

# GenTech Scientific, Inc.

Providing quality refurbished  
Analytical Instruments since 1996.  
GenTech has the expertise to get your  
lab up and running at a fraction of the  
cost of new.

Learn more at [www.gentechscientific.com](http://www.gentechscientific.com).

# Hamilton Robotics

Hamilton is a global leader in liquid handling and laboratory automation technology, advancing the forensic laboratory analytical sciences through reliability, performance and flexibility.

Learn more at [www.hamiltoncompany.com](http://www.hamiltoncompany.com).

# I. Miller Precision Optical/ Leica Microsystems

---

# I. Miller Precision Optical/ Leica Microsystems

Family owned and operated Microscope  
Sales & Service company since 1936  
focusing on the Forensic marketplace.

Authorized distributor for Leica  
Microsystems in NY, NJ, PA, MD, and  
VA.

Learn more at

[www.imillermicroscopes.com](http://www.imillermicroscopes.com).

# InnoGenomics Technologies, LLC

InnoGenomics Technologies, LLC is a biotechnology research and development company dedicated to the development of innovative genetic testing that solve crimes and save lives.

Learn more at [www.innogenomics.com](http://www.innogenomics.com).

# Ion Sense, Inc.

IonSense manufactures and sells Direct Analysis in Real Time (DART®-MS) technology for analysis of forensic samples with minimal prep and identification in seconds.

Learn more at [www.ionsense.com](http://www.ionsense.com).

# JEOL USA, Inc.

---

# JEOL USA, Inc.

JEOL is a global leader in imaging and analysis tools, offering unique mass spectrometry and electron microscopy solutions for forensic science applications.

Learn more at [www.jeolusa.com](http://www.jeolusa.com).

# John Wiley and Son

---

# John Wiley and Son

Spectral libraries from Wiley provide the research community with high-quality data collections that help reduce errors and increase productivity for toxicology, environmental, and analytical laboratories.

Learn more at [www.wiley.com](http://www.wiley.com).

# Lipomed

Lipomed is a manufacturer of Analytical Drug Standards, solids, and DEA-exempt solutions. The portfolio comprises a wide selection of native and deuterated compounds.

Learn more at [www.lipomed.com](http://www.lipomed.com).

# Mettler Toledo

# Mettler Toledo

Mettler Toledo offers a wide range of highly sensitive and accurate analytical instruments and balances. They are used to reveal changes occurred during an incident. Hence, they help reconstruct the sequence of events.

Learn more at [www.mt.com](http://www.mt.com).

# The Pennsylvania State University Forensic Science Program

The Forensic Science Program (BS & MPS) offers an exciting and innovative curriculum that gives students advanced, hands-on training in crime laboratory methodologies and crime scene investigation techniques.

Learn more at <http://forensics.psu.edu/>.

# Perkin Elmer

PerkinElmer, Inc. is a global corporation focused in the business areas of diagnostics, life science research, food, environmental and industrial testing. Its capabilities include detection, imagine, informatics, and service.

Learn more at [www.perkinelmer.com](http://www.perkinelmer.com).

# Promega Corporation

# Promega Corporation

Promega Corporation is a global leader in the development, distribution and sale of products for human identification, with kits, reagents and instrumentation for forensics, offender databasing and paternity testing laboratories. Promega offers flexible, reliable solutions, for all stages in the DNA laboratory workflow, from sample preparation through STR analysis.

Learn more at [www.promega.com](http://www.promega.com).

# Randox Toxicology

# Randox Toxicology

Randox Toxicology delivers innovative solutions for fast and accurate drug detection with the world's largest toxicology test menu for drugs of abuse.

Learn more at [www.randox.com](http://www.randox.com).

# Restek Corporation

---

# Restek Corporation

Restek is a leading developer and manufacturer of chromatography columns and accessories. We provide analysts around the world with the innovative tools they need to monitor the quality of air, water, soils, foods, pharmaceuticals, chemical, and petroleum products.

Learn more at [www.restek.com](http://www.restek.com).

# SCIEX

# SCIEX

Accurate results mean everything. SCIEX offers LC/MS/MS solutions that enable rapid screening, identification, and quantitation of hundreds of compounds in a single analysis.

Learn more at  
[sciex.com/solutions/forensic-testing](http://sciex.com/solutions/forensic-testing).

# Shimadzu

# Shimadzu

Shimadzu is a leading manufacturer of scientific instrumentation, including chromatography, spectroscopy, FTIR, environmental monitoring, and physical measurement. Markets/industries served include pharmaceuticals, metals, forensics, educational, government, agriculture, and petrochemical.

Learn more at [www.shimadzu.com](http://www.shimadzu.com).

# SoftGenetics

# SoftGenetics

SoftGenetics is the community's complete source for forensic DNA analysis. Mitotyping Technologies is the clear choice for forensic mitochondrial DNA analysis.

Learn more at [www.softgenetics.com](http://www.softgenetics.com).

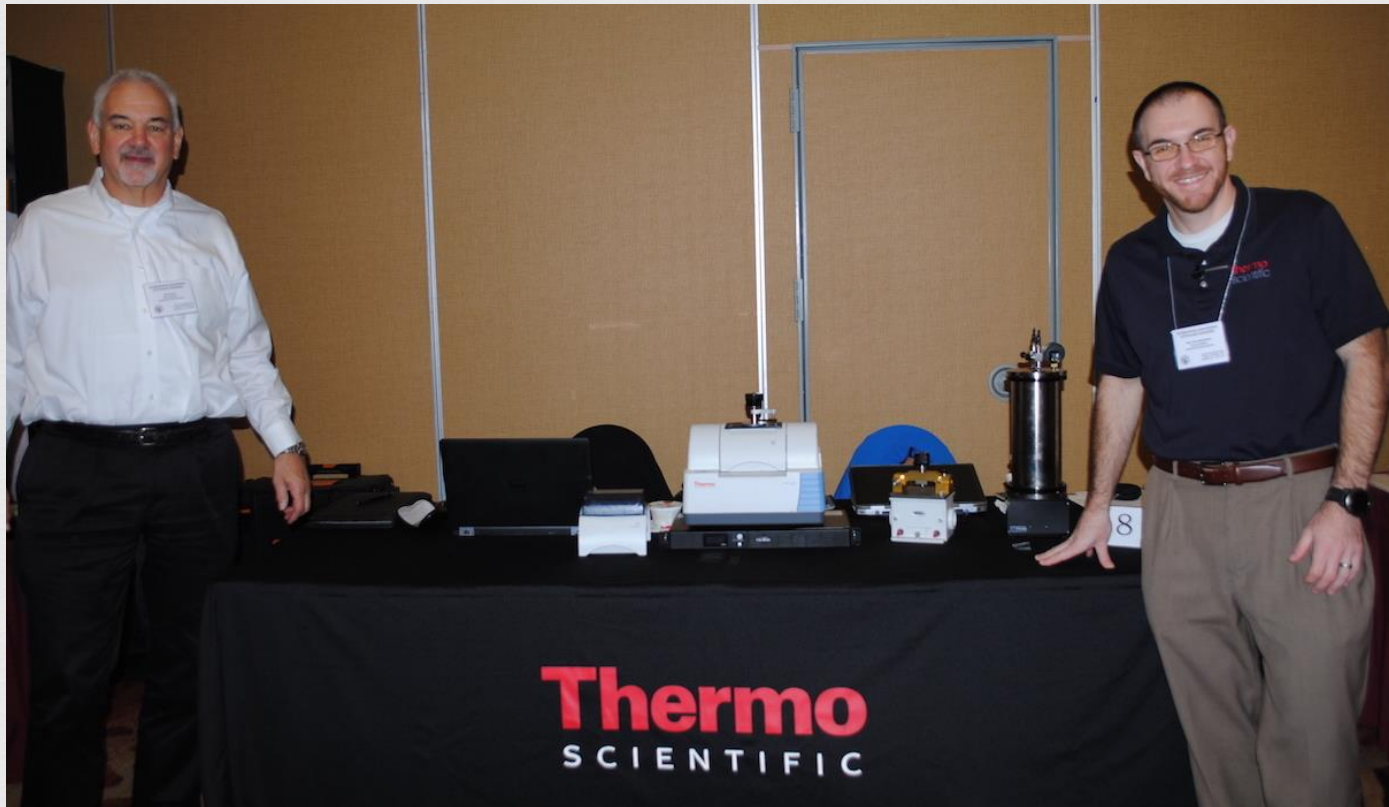

# QIAGEN

Qiagen is a leading provider of Sample to Insight technologies in the forensic and human identification communities.

Learn more at [www.qiagen.com](http://www.qiagen.com).

# Thermo Fisher Scientific (HID)

# Thermo Fisher Scientific (HID)

Thermo Fisher Scientific is the world leader in serving science. When forensic results mean the difference between innocent or guilty, authorities depend on accurate analysis. We offer an unmatched combination of innovative technologies, purchasing convenience & sales.

Learn more at

<http://www.thermofisher.com/hid>.

# Thermo Fisher Scientific (Analytical Instruments)

Visit Thermo Scientific's exhibit for the world's largest portfolio of analytical instruments, reagents, laboratory consumables, equipment, and services. Thermo Scientific helps keep your laboratory at peak performance.

Learn more at [www.thermofisher.com](http://www.thermofisher.com).

# Verogen

---

# Verogen

Verogen serves those who pursue the truth using genetic tools. Powered by Illumina technology and working in partnership with forensic laboratories, we are unlocking the true potential of forensic genomics.

Learn more at [www.verogen.com](http://www.verogen.com).

# Waters Corporation

---

# Waters Corporation

Waters Corporation, the leading specialty measurement company, has pioneered chromatography, mass spectrometry, and thermal analysis innovations in life, materials, and food sciences for 60 years.
